

Your commitment

For the ambitious, innovative and competitive person, this truly is the apprentice program for you.

Ultimately, we ask that you come fully committed to complete the course and join the Renault team.

Beyond simply completing the course, we ask that you adopt our drive to achieve excellence in everything we do. Taking on this philosophy will ensure you complete the course with outstanding results and satisfy many happy Renault customers along the way.

Come committed, bring the passion, and enjoy what you do, because you may very well walk into a long and successful career.

This training is funded by the NSW, VIC, QLD, WA, SA, ACT governments in partnership with the Commonwealth Government.

2019 Renault Apprentice Program

We are Renault

This is for the revolutionaries.
The innovators and the forward thinkers.
For those who believe in the distinctive.
The passionate and the individual.
For those who appreciate style
and excellence in engineering.
Who celebrate the joy of life and look for
the special in everyday.

The importance of you

Renault has a proud and long history in the automotive industry. Recognised as a highly innovative brand, we are passionate about motorsport and the development opportunities that come from it.

The Renault brand has grown considerably over the past few years, and a huge focus of this sustained growth is investment in our people. The Renault Apprentice Program is a key pillar in this philosophy, as it represents the foundation for technical excellence now and into the future – a key driver for ongoing customer satisfaction.

That's what makes this program really exciting, because Renault apprentices are actually employed by an authorised Renault dealership. This means you'll reap the benefits of real world experience with the potential to lead into a long and exciting career.

The Renault Apprentice Program

You'll be employed by a Renault dealership that has openly expressed an interest in acquiring an apprentice, meaning you'll benefit from real world experience – all aspects of maintaining Renault vehicles, such as scheduled servicing requirements and major diagnostic and repairs.

Completed over 4 years, the apprenticeship combines this real world experience with a diverse range of off-the-job training (3 years block release) at the Renault Academy. In effect, you'll learn new knowledge and skills, apply them in the workplace, and then constantly work to improve upon them.

Such knowledge includes electronic fault diagnosis which is now a fundamental part of day to day operations, so you'll learn how to use the latest Renault diagnostic equipment, such as the Formula 1™ inspired CLIP.

Along the way, you'll be supported and encouraged to demonstrate initiative and contribute your own ideas to develop the business, with an ultimate focus on achieving Renault's ongoing commitment to high levels of customer satisfaction.

The mix between extensive training and full time employment is a highly effective way for you to earn your formal qualifications, and finish with the relevant skills and knowledge to continue your journey in the dynamic automotive industry.

Key information

Structure:

The training will be delivered in 8 lots of 1 week blocks for the first 3 years of the program. From time to time, product specific courses will also be delivered by Renault Australia's technical experts to ensure you're learning about the latest Renault technology and improvements.

Location:

While a large portion of your training will be in the workplace, off-the-job training will be conducted in the recently opened and state of the art Renault Academy, located in Mulgrave, Victoria. Of course, Renault vehicles, training rigs, tools, equipment and materials will all be provided

Training provider:

Renault Australia has developed the program tailored to the Renault brand, platform, and systems. This has been done in conjunction with our training provider, Kangan Institute's Automotive Centre of Excellence (ACE) who will deliver the training.

Qualifications:

On successful completion of the Renault Apprentice Program, you will have the following qualifications:

- Certificate III in Light Vehicle Mechanical Technology (AUR30616)
- Certificate II in Automotive Air Conditioning Technology (AUR20216)
- Advanced Renault Technician

Benefits

Renault:

A program built on our passion – exclusive use of Renault vehicles, the state of the art Renault Academy, literature and tools as well as employment within the Renault dealer network.

Rewarding:

Full time employment in an authorised Renault dealership means your work will directly impact the satisfaction of actual Renault customers each and every day.

Relevant:

Learn skills, both within the workplace and off-the-job that are actually relevant for current day technicians. Combined with ongoing development and new Renault product training you'll be more than prepared for the future.

Reputable:

Nationally recognised qualifications and Advanced Renault Technician status upon completion help to prepare a pathway for your career ahead
